e) Potential item of imports from India

S No	Commodity (6 Digit HS code)	Rationale (Max 200 words)
1	Engineering Goods & Projects Exports (401180)	- In view of upcoming Infrastructure, and Energy projects including renewable Energy in Bahrain, there is a considerable scope to increase Engineering goods & project exports. There is export target of USD 398.3 million for engineering goods for the FY 2023-24.
2	Jewellery of gold (71131910)	- Bahrain is famous for its lustrous original pearl and the purity of gold, as these commodities are in great demand in Bahrain. There is a target of USD 108.1 million for export of Gem & jewellery for the FY 2023-24.
3	- Pharmaceuticals (300220) - Medical And Surgical Instruments	- India's share in Bahrain's pharma market has remained less than 2% of its import. Patented medicines and

	(902214)	foreign drug companies dominate the Bahraini pharmaceutical market. However, the generic drug sector is expected to grow as the government is looking to raise health awareness and control costs. This provides Indian pharma companies opportunity to make inroads in Bahraini market. The Indian Pharmacopoeia (IP) recognition, taken up by the Mission, in Bahrain will also help in boosting the pharma exports and in supporting the 'Atmanirbhar Bharat' initiative.
4	Agro products (070960)	- There is considerable scope to increase export of organic food, processed cereals, protein bars, healthy beverages, dairy products etc.
5	Renewable Energy (850231) (854370)	- Bahrain has set target of net zero carbon emission by 2060 and has accordingly revised the renewable energy target to 20% by 2035. Hence, there is scope to increase our export of renewable energy products & services.
6	Rmg of all Textile Items (600320)	- There is a target of USD 18.4 million for export of Ready made garments textile for the FY 2023-24
