e) Potential item of imports from India

S No	Commodity (6 Digit HS code)	Rationale (Max 200 words)
1	Engineering Goods	In view of upcoming Infrastructure and energy projects including renewable Energy in Bahrain, there is a considerable scope to increase export of Engineering goods & project exports. There is export target of USD 233.9 million for engineering goods in FY 2024-25.
2	Pharmaceuticals (300220)	India's share in Bahrain's pharma market has remained less than 2% of its import. Patented medicines and foreign drug companies dominate the Bahraini pharmaceutical market. However, the generic drug sector is expected to grow as the government is looking to introduce mandatory health insurance scheme and control costs. This provides Indian pharma companies opportunity to make inroads in Bahraini market. Recognition of the Indian Pharmacopoeia (IP) taken up by the Mission and the proposed annex to the MoU in Healthcare Sector promote to promote trade of pharmaceutical products may help in boosting the pharma exports .
3.	Electronic Goods (including mobile phone)	Smartphones are the single largest export items from China to Bahrain which is the largest exporting country to Bahrain. Similarly, other electronic goods constitute important part of Chinese export basket to Bahrain. With India emerging as hub for Smartphones and other electronic goods , there is considerable scope to increase our export of these products to Bahrain. Last year (2023-24), we realized USD 157.3 million export under this category which is 1144% of export target of USD 13.8 million. This trend may continue with sustained efforts.
4	Jewellery of gold (71131910)	Gold jewellery is among top ten import items of Bahrain of which our share last year was only 11%. However, considerable amount of Indian jewellery is coming through UAE which captures 54% of Bahraini market. There is scope to increase our direct export to Bahraini market given popularity of Indian designs and craftsmanship.
5	Organic and processed food products	There is considerable scope to increase export of organic food, processed cereals, protein bars, healthy beverages,

	dairy products etc.
