b) Top 10 items of import from India during:

0 1 2 0 2 4 - 0 4 2 0 2 4

S.No.	6-digit HS Code	Commodity	Value (US\$ million)	Import Weight (Ton)	% share in total import of the commodity
1	271012	Light oils and preparations	435	624,297	6.4%
2	760110	Aluminium, not alloyed	158	66,188	17.3%
3	720241	Ferro-chromium - Containing by weight more than 4 % of carbon	60	45,475	41.1%
4	780110	Refined lead	52	23,783	68.4%
5	250100	Salt (including table salt and denatured salt) and pure sodium	43	983,579	49.4%

^{*}Data shown above is the most recent data available as of May 2024

		chloride, whether or not in aqueous solution or containing added anti-caking or free-flowing agents; sea water.			
6	230649	Oilcake and other solid residues of rape or colza seeds	41	114,462	100.0%
7	740400	Copper waste and scrap.	31	6,408	4.4%
		Nucleic acids and there salts, whether or not chemically defined;		138	
8	293499	other Heterocyclic Compounds	26		16.6%
9	760120	Aluminium alloys	26	10,330	6.8%
		Compounds containing an unfused thiazole ring (whether or not		142	
10	293410	hydrogenated) in the structure	25		62.5%

^{*}Data shown above are the most recent data available as of May 2024

c) Top 10 items of export to India during:

0	1	2	0	2	4	-	0	4	2	0	2	4	
---	---	---	---	---	---	---	---	---	---	---	---	---	--

Sr. No.	6-digit HS Code	Commodity	Value (US\$ million)	Export Weight (Ton)	% share in total export of the commodity
1	854231	Processors and controllers, whether or not combined with memories, converters, logic circuits, amplifiers, clock and timing circuits, or other circuits	460	70	4.2%
	004201	Circuits	400	70	7.2 /0
2	854232	Memories	382	11	1.9%
3	271019	Petroleum oils and oils from bituminous minerals, not containing biodiesel, not crude, not waste oils; preparations n.e.c, containing by weight 70%	334	385,581	2.7%
		2,g 2,2			
4	720838	Flat-rolled products of iron or non-alloy steel - Of a	108	165,485	42.2%

		thickness of 3 mm or more but less than 4.75 mm			
5	852412	Of organic light-emitting diodes (OLED)	107	140	3.2%
		Poly (vinyl chloride), not		120,776	
6	390410	mixed with any other substances	89		50.3%
7	290250	Styrene	87	79,932	68.0%
8	721049	Flat-rolled iron or nonalloy steel products	82	106,048	8.0%
9	870840	Gear boxes and parts thereof	82	5,877	7.8%
10	790111	Containing by weight 99.99 % or more of zinc	79	30,467	30.4%

^{*}Data shown above are the most recent data available as of May, 2024.

d) Significant trends in trade and investment:

S.	Category	Details of significant trends	Analysis
No.		(Max.200 words)	(Max.200 words)
1.	Trade	The Ministry of Trade, Industry and Energy (MOTIE) announced that exports in May this year increased 11.7% year-on-year to \$58.15 billion, imports decreased 2.0% to \$53.19 billion, and trade balance recorded a surplus of \$4.96 billion.	In May, 11 of the ROK's 15 major export items included semiconductors, displays, computers, wireless communications, petrochemicals, automobiles, petroleum products, ships, biohealth, home appliances and textiles. Semiconductors, Korea's leading export item, leaped 35.7% in exports and reached \$11.7 billion, an all-time high since the \$12.3 billion recorded in June 2022, and gained for the fifth consecutive month. All IT items were positive for the third consecutive month, and combined exports also rose for the seventh consecutive month. Exports of semiconductors, the largest export item, rose 54.5 percent to \$11.38 billion, marking the seventh consecutive month of increase, surpassing

\$11 billion for the second time after March this year.'

Display exports were the highest performance this year at \$1.63 billion, drawing an upward-sloping graph for the 10th consecutive month. Meanwhile, exports of computers and SSDs reached \$1.04 billion, the highest performance in 17 months since December 2022, marking the fifth consecutive month and exports of wireless communication devices increased for the third consecutive month.

Automobile exports rose 4.8 percent to 6.49 billion dollars, the highest ever in May. Excluding February, which includes the Lunar New Year holiday this year, the recorded has positive company а performance of more than 6 billion dollars every month. Shipment exports increased 108.4 percent to 2.06 billion dollars, showing a triple-digit growth rate for the 10th consecutive month, and bio-health exports rose for the seventh consecutive month with double-digit growth (18.7 percent).

Petroleum products (+8.4%) are on the rise for three consecutive months, while home appliances (+7.0%), petrochemicals (+7.4%) and textiles (+1.6%) are on the rise for two consecutive months.

Exports to China amounted to 11.38 billion dollars, the highest performance in 19 months since October 22.10 billion dollars. Exports to the U.S. amounted to 10.93 billion dollars, the highest ever recorded in May, marking the 10th consecutive month of increase. Exports to South America were the highest among the nine major regions (+25.5 percent), with ASEAN (+21.9 percent), Japan (+2.4 percent), India (+24.8 percent), and the Middle East (+2.2 percent) showing positive growth for two consecutive months, respectively.

			Imports in May fell 2.0% to \$53.19 billion. Energy imports edged up to \$11.7 billion due to increased imports of crude oil and gas. The trade balance in May was \$4.96 billion, the largest surplus in 41 months.				
2.	Investment	January-December 2023, latest	to India amounted to \$452.92 million during data as of May 2024. Majority of the cturing. Cumulative investment since 1980				
		The total number of Korean investments in India is 4,953 since 1980. The number of investments decreased from 256 (\$433 million) in 2022 to 219 (\$415 million) in 2023. The total number of Korean investments in India is 4,953 since 1980. The number of investments decreased from 256 (\$433 million) in 2022 to 219 (\$415 million) in 2023.					

e) Number of Korean companies in India and investment value:

Industry	Number of Korean Companies in India (January-December 2023)	Invested Amount (Unit: USD Million)
Total	74	452.92 (452.9 million)
Manufacturing	29	215
Wholesale and retail trade	14	9
Professional, scientific and technical activities	10	1
Information and communications	7	38
Transportation and storage	4	1
Financial and insurance activities	4	177
Construction	1	0
Accommodation and food service activities	1	3

Real estate activities	1	1
Business facilities management and business support services; rental and leasing activities	1	7
Education	1	0
Membership organizations, repair and other personal services	1	1
Total (Cumulative from 1980)	1,493	8,223 (8.22 billion)

^{*}Data shown above are the most recent data available as of May 2024

(Source: Korea Exim Bank https://stats.koreaexim.go.kr/en/enMain.do)

f) Investment in USD \$:

- Total FDI up to December 2023: 8.22 billion
- 453 million in 2023 (January-December)
- 371 million in 2022
- 343 million in 2021
- 625 million in 2020
- 453 million in 2019
- 1,072 million in 2018
- 516 million in 2017
- 337 million in 2016
- 365 million in 2015
- 337 million in 2014
- 347 million in 2013
- 323 million in 2012
- 457 million in 2011
- 199 million in 2010
- 243 million in 2009]
- *Data shown above are the most recent data available as of May 2024

(Source: Korea Exim Bank https://stats.koreaexim.go.kr/en/enMain.do)
Note: EXIM Bank, Korea does not maintain data in the suggested format. However, as per available data up to May 2024, Korea invested USD 453 million in India from January – December 2023.

B. Market Access Alerts

0	5	2	0	2	4

a) Alerts on customs tariff changes: -

Sr.	Notificatio	HS	Descriptio	Original	Present	Effectiv	Remark	Upload	
No	n no. and	cod	n	custom	custom	e from	s if any	notificatio	
	date	е		s tariff	s tariff			n (pdf
